The goal of the challenge is to celebrate the data visualization legacy of W.E.B Du Bois by recreating the visualizations from the 1900 Paris Exposition using modern tools.

This directory contains the data and original plates from the exposition; your goal is to re-create the visualizations using modern tools of your choice (Tableau, R, ggplot, Stata, PowerBI, decksh, etc)

There is a folder for each challenge, which includes the images of the 1900 original plates along with the corresponding data. You may submit your re-creations to twitter using the hash tag #DuBoisChallenge2023 .

Note that for 2023, we will expanding the challenge to the Data Visualization Society Slack, as well as Mastadon on vis.social

Took me a minute because I wanted to learn D3 first 😅, but here is my visualization for Challenge 1.

My favorite part of this challenge so far is that it's growing my appreciation for DuBois' Data Portraits (there are so many meticulous details that start to emerge along the way). As for this chart in particular, I love how its legend adds more context beyond just labels for each color.

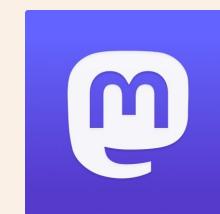

Made with: D3, JavaScript, HTML, CSS, Figma, Google Fonts (edited)

This week's #DuBoisChallenge2023 #dataviz exhibit shows the number of Higher Education enrollments by race and field in Brazil (2020). The arc length is proportional to this number.

Fortunately, it was fairly easy to do this "fan chart" in #RStats thanks to {ggforce} 😊

HIGHER EDUCATION ENROLLMENTS BY RACE AND FIELD.

ENROLLMENTS ON REMOTE AND IN PERSON COURSES IN BRAZIL (2020).

INSPIRED BY: W.E.B. DU BOIS | DATA FROM: IBGE | GRAPHIC BY: ÍCARO BERNARDES
Twitter: @IcaroBSC | GitHub: @IcaroBernardes | LinkedIn: @icarobsc

The chart displays the proportion of higher education enrollments for Black and White students across various fields. The legend indicates the following fields:

- LAW AND BUSINESS (Red)
- EDUCATION AND OTHERS (Blue)
- ENGINEERING & PRODUCTION, COMPUTER AND NATURAL SCIENCES (Yellow)
- ARTS, SOCIAL AND HUMAN SCIENCES (Brown)
- HEALTH AND WELLNESS (Light Blue)

Black students account for 30% of Law and Business, 25% of Education and Others, 23% of Engineering, Production, Computer and Natural Sciences, 19% of Arts, Social and Human Sciences, and 19% of Health and Wellness. White students account for 29% of Law and Business, 20% of Education and Others, 19% of Engineering, Production, Computer and Natural Sciences, 9% of Arts, Social and Human Sciences, and 7% of Health and Wellness.

My entry, for week 8 of #DuboisChallenge2023. It is a reproduction of DuBois' Comparative rate of increase of White and Black elements of the population of the United States. #Rstats #blackhistorymonth2023.

Comparative rate of increase of the White and Negro elements of the population of the United States

Accroissement proportionnel des éléments Blancs et Noirs aux Etats-Unis

Done by Atlanta University

Millions

The graph shows two lines: a green line for 'WHITE-BLANCHE' and a red line for 'BLACK-NOIRE'. The y-axis represents millions of people, ranging from 0 to 55. The x-axis represents years from 1790 to 1890. Data points are labeled at various intervals. The green line starts at approximately 3.1 in 1790 and rises to 54.4 in 1890. The red line starts at approximately 0.8 in 1790 and rises to 8.4 in 1890.

Year	White-Blanche (Millions)	Black-Noire (Millions)
1790	3.1	0.8
1800	4.3	1.4
1810	5.8	1.8
1820	7.8	2.3
1830	10.4	2.9
1840	14.0	3.6
1850	19.0	4.5
1860	26.0	4.9
1870	35.7	6.6
1880	42.0	8.4
1890	54.4

Another entry, this time for week 9 of #DuboisChallenge2023. It is a reproduction of DuBois' Occupation of Blacks in the United States. #Rstats #blackhistorymonth2023.

Occupations in which American Negroes are engaged

Occupation et industrie des Noirs Américains

Done by Atlanta University

BOTH SEXES HOMMES ET FEMMES

MALES HOMMES

FEMALES FEMMES

The chart displays three stacked bars representing different groups. The left bar is for 'BOTH SEXES HOMMES ET FEMMES', the middle for 'MALES HOMMES', and the right for 'FEMALES FEMMES'. The segments within the bars represent various occupational categories. The y-axis lists these categories: AGRICULTURE, MINING AND FISHING; PROFESSIONS; DOMESTIC AND PERSONAL SERVICE; and COMMERCE AND TRANSPORTATION, MANUFACTURING AND MECHANICAL INDUSTRIES.

My 3rd and last iteration at the interpretation of Dubois City and Rural Population 1890 (plate 11) for #DuboisChallenge2023. I tried and tweaked @UST_MSDS codes in DuBoisian style #Rstats #blackhistorymonth2023.

CITY AND RURAL POPULATION. 1890.

A circular map with concentric rings representing population density. The center circle is labeled '734,952' and the outer ring is labeled 'LIVING IN THE COUNTRY AND VILLAGES'. The map is divided into four quadrants representing different city sizes: 'LIVING IN CITIES OF OVER 10,000 INHABITANTS' (top-left), '37,699 LIVING IN CITIES FROM 2,500 TO 5,000' (top-right), '8,025 LIVING IN CITIES FROM 500 TO 10,000' (bottom-right), and 'PROFESSIONS' (bottom-left).

Thank you @ajstarks, @AlDatavizguy, @menscuriosa and @sqlsekou for the fascinating challenge, resources and inspiration!

RE-VISUALIZING THE BLACK AMERICA OF W.E.B. DU BOIS

W.E.B. Du Bois (1868-1963) was an American sociologist, socialist, historian and Pan-African civil rights activist. He contributed over 60 handmade charts to the Exhibit of American Negroes at the 1900 World's Fair in Paris. The collection is now housed at the Library of Congress in Washington, DC.

#DuBoisChallenge2023 | 10 charts in a gallery 🎉 This has been a dream ever since my Tableau foray a year ago this month & I saw Chimdi's gallery. The only head-scratcher was the spiral; one was in Figma, 4 with tutorials & the rest all me #datafam

 **New Viz** 

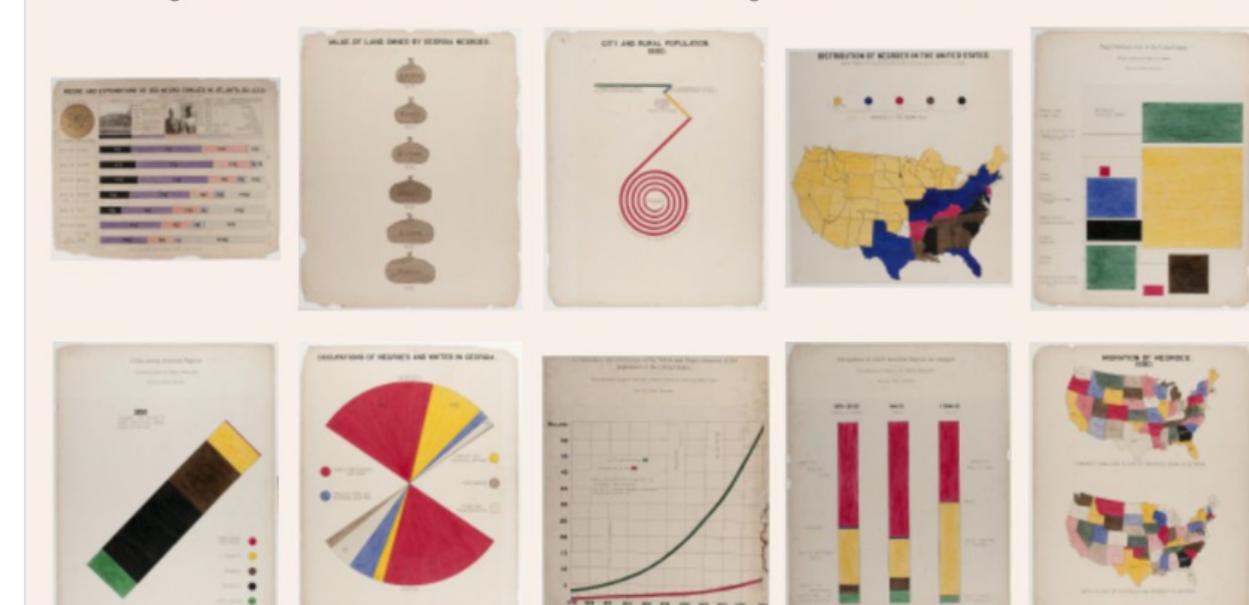

In honor of W.E.B Du Bois and Black History Month, I completed the entire 2023 #duboischallenge using @tableaupublic:
tabsoft.co/3y2J0o9

Thank you to @aldatavizguy and @menscuriosa for hosting this fantastic challenge, and to @ajstarks for the data.

Original Plates by W.E.B. Du Bois for the 1900 Paris Exposition.
Reinterpreted by Elisa Davis.

#DuBoisChallenge2023

Click images to see "modern" versions of these visualizations generated with Tableau.

The goal of the challenge is to celebrate the data visualization legacy of W.E.B DuBois by recreating the visualizations from the 1900 Paris Exposition using modern tools.

Note: titles are taken from the 1900 originals and use antiquated terms to refer to populations of color.
