The goal of the challenge is to celebrate the data visualization legacy of W.E.B Du Bois by recreating the visualizations from the 1900 Paris Exposition using modern tools.

This directory contains the data and original plates from the exposition; your goal is to re-create the visualizations using modern tools of your choice (Tableau, R, ggplot, Stata, PowerBI, decksh, etc)

There is a folder for each challenge, which includes the images of the 1900 original plates along with the corresponding data. You may submit your re-creations to twitter using the hash tag #DuBoisChallenge2023 .

Note that for 2023, we will expanding the challenge to the Data Visualization Society Slack, as well as Mastodon on vis.social

Fortunately, it was fairly easy to do this "fan chart" in #RStats thanks to {ggforce} 😊

The chart displays the proportion of higher education enrollments for Black and White students across various fields. The legend indicates the following fields:

- LAW AND BUSINESS (Red)
- EDUCATION AND OTHERS (Blue)
- ENGINEERING & PRODUCTION, COMPUTER AND NATURAL SCIENCES (Yellow)
- ARTS, SOCIAL AND HUMAN SCIENCES (Brown)
- HEALTH AND WELLNESS (Light Blue)

Black students account for 30% of Law and Business, 25% of Education and Others, 23% of Engineering, Production, Computer and Natural Sciences, 19% of Arts, Social and Human Sciences, and 19% of Health and Wellness. White students account for 29% of Law and Business, 20% of Education and Others, 19% of Engineering, Production, Computer and Natural Sciences, 9% of Arts, Social and Human Sciences, and 7% of Health and Wellness.

Two arrows point from the top right towards the center: one labeled '8,025 LIVING IN CITIES FROM 5,000 TO 10,000' and another labeled '37,699 LIVING IN CITIES FROM 2,500 TO 5,000'.

**RE-VISUALIZING THE BLACK AMERICA OF W.E.B. DU BOIS**

W.E.B. Du Bois (1868-1963) was an American sociologist, socialist, historian and Pan-African civil rights activist. He contributed over 60 handmade charts to the Exhibit of American Negroes at the 1900 World's Fair in Paris. The collection is now housed at the Library of Congress in Washington, DC.

#DuBoisChallenge2023 | 10 charts in a gallery 🎉 This has been a dream ever since my Tableau foray a year ago this month & I saw Chimdi's gallery. The only head-scratcher was the spiral; one was in Figma, 4 with tutorials & the rest all me #datafam

Click images to see "modern" versions of these visualizations generated with Tableau.

The goal of the challenge is to celebrate the data visualization legacy of W.E.B DuBois by recreating the visualizations from the 1900 Paris Exposition using modern tools.

Note: titles are taken from the 1900 originals and use antiquated terms to refer to populations of color.
