# Workshop Outline

1. Historical Context
2. Sociological Approach: The Philadelphia Negro
3. An overview of the Du Bois 1900 Visualization Collection
4. Approaching Contemporary Data

# Getting to know you

What city or neighborhood:

- Do you call home
- Inspires you
- Brings feeling of nostalgia

# Getting to know you

What time period or historical event has had a profound effect:

- On NYC?
- On the United States?
- Around the world?
- On YOU?

"This inquiry extended over a period of fifteen months, and sought to ascertain something of the geographical distribution of this race, their organizations, and above all their relation to their million white fellow-citizens"

# The Philadelphia Negro: Survey Methods

1. Family survey - (marital status, income, employment)
2. Individual survey - (same as above)
3. Home survey - (home ownership vs renting)
4. Street survey - (collecting local data)
5. Survey for institutions and organizations
6. Survey for home servants

# What would Du Bois say?

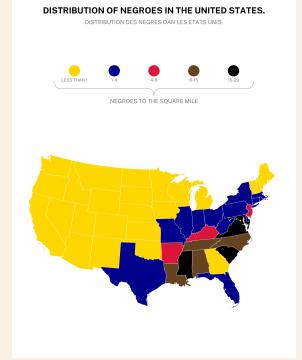

Du Bois emerged from the Philadelphia Negro as the first number-crunching, surveying, interviewing, participant-observing and field-working sociologist in America.

What do you think Du Bois would have to say to an aspiring data journalist? Would he have embraced social media?

# What Visualization Catches Your Eye?

If you were attending the 1900 Paris Expo, which visualization would grab your attention?

In writing your next article on the state of Black America, which visualization(s) would you use to complement your story?

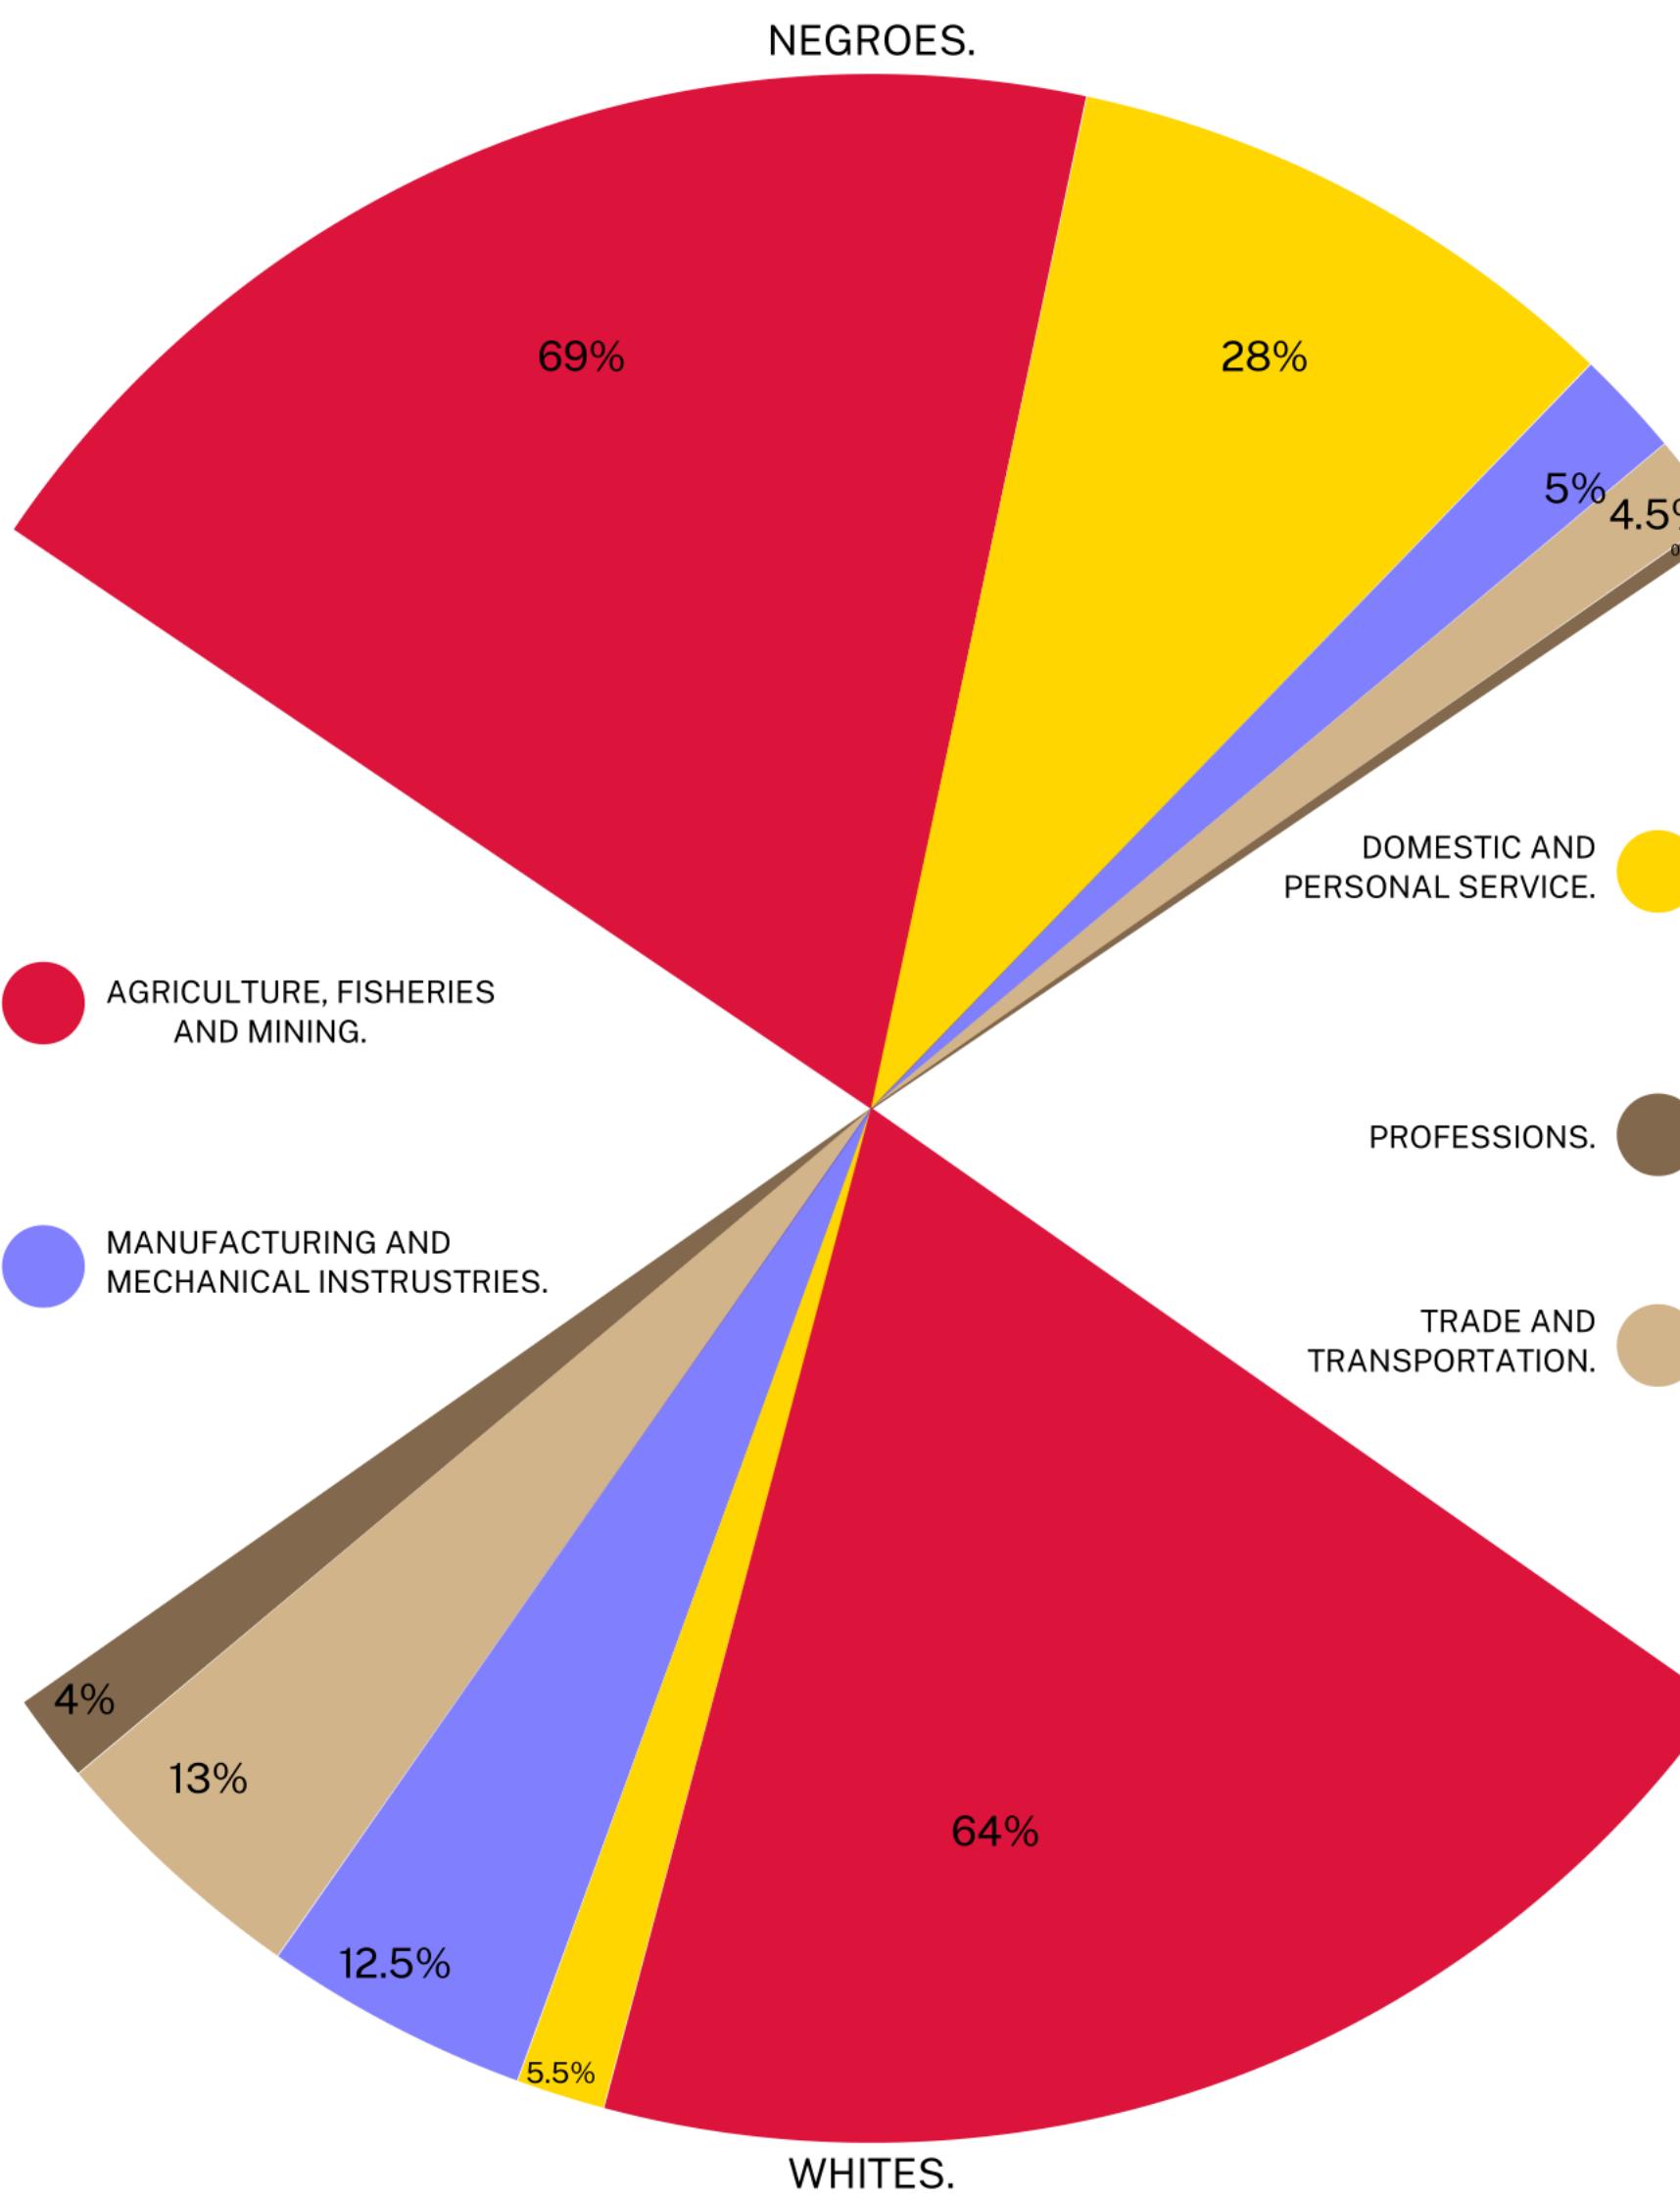

Make a data sketch (using pen/paper, whatever) using a Du Bois visual as inspiration

#TidyTuesday and #DuBoisChallenge

I decided to recreate challenge 07 using only coord\_polar. It is not a perfect recreation, but I am happy with it (mostly because I didn't have to use my very rusty trigonometry knowledge).

@CharlieEatonPhD

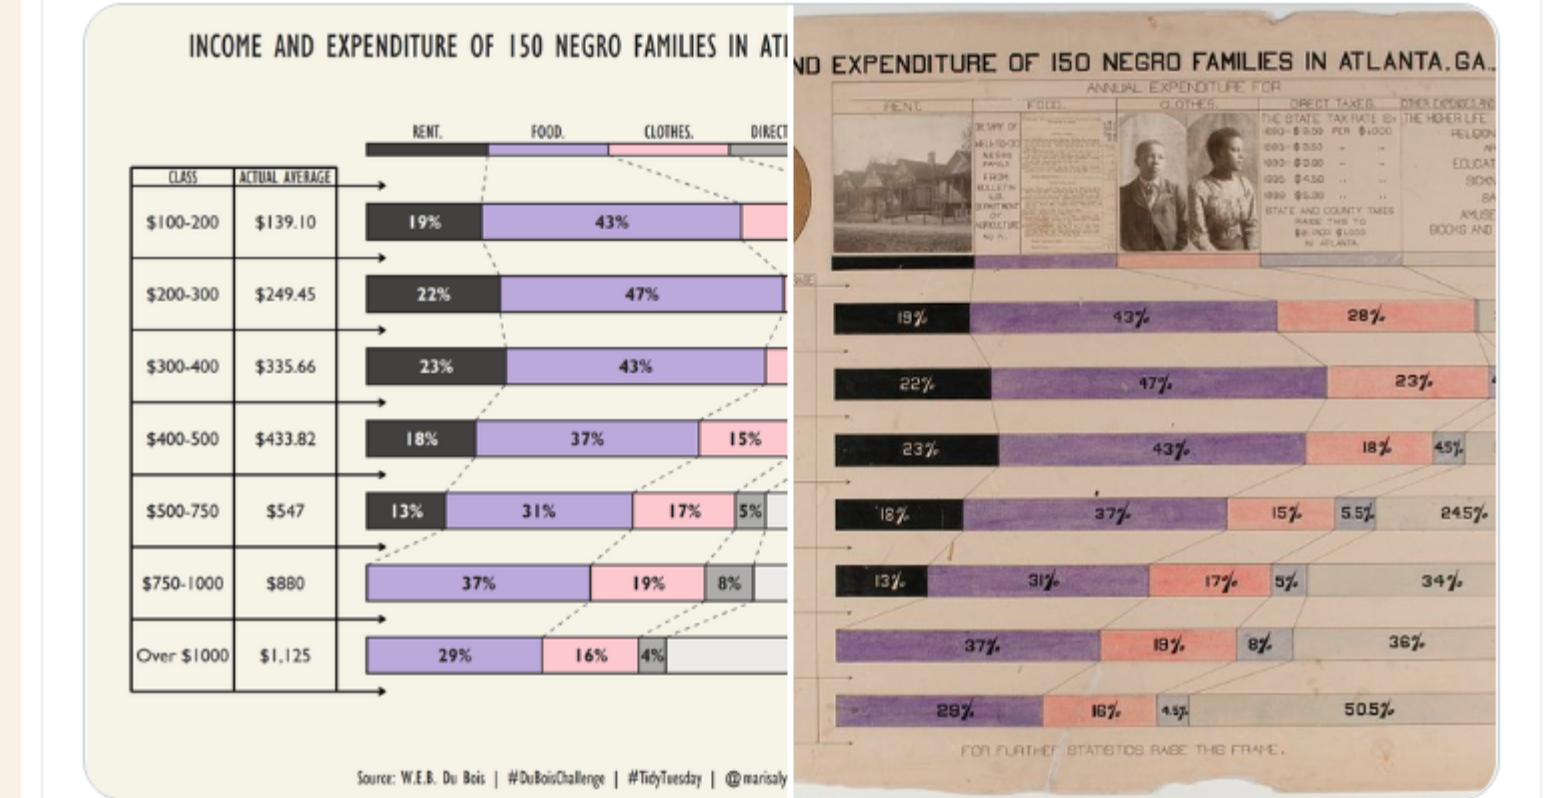

I'm thrilled that any @Stata user can now add the Du Bois graphing scheme to their machine using the \*ssc install dubois\* command. After installing, check \*help dubois\* for tips to use the scheme for the #DuBoisChallenge or modern replications like this one!

Marisa Henry  
@marisalyn

had lots of fun learning more about W.E.B DuBois and attempting to recreate one of his figures for the #DuBoisChallenge and #TidyTuesday this week!

# How do you humanize your visualization?

# Human elements in Plate 31

# Adrian Brandon

Seattle Raised, Brooklyn Based Artist  
and Author of The Stolen Series

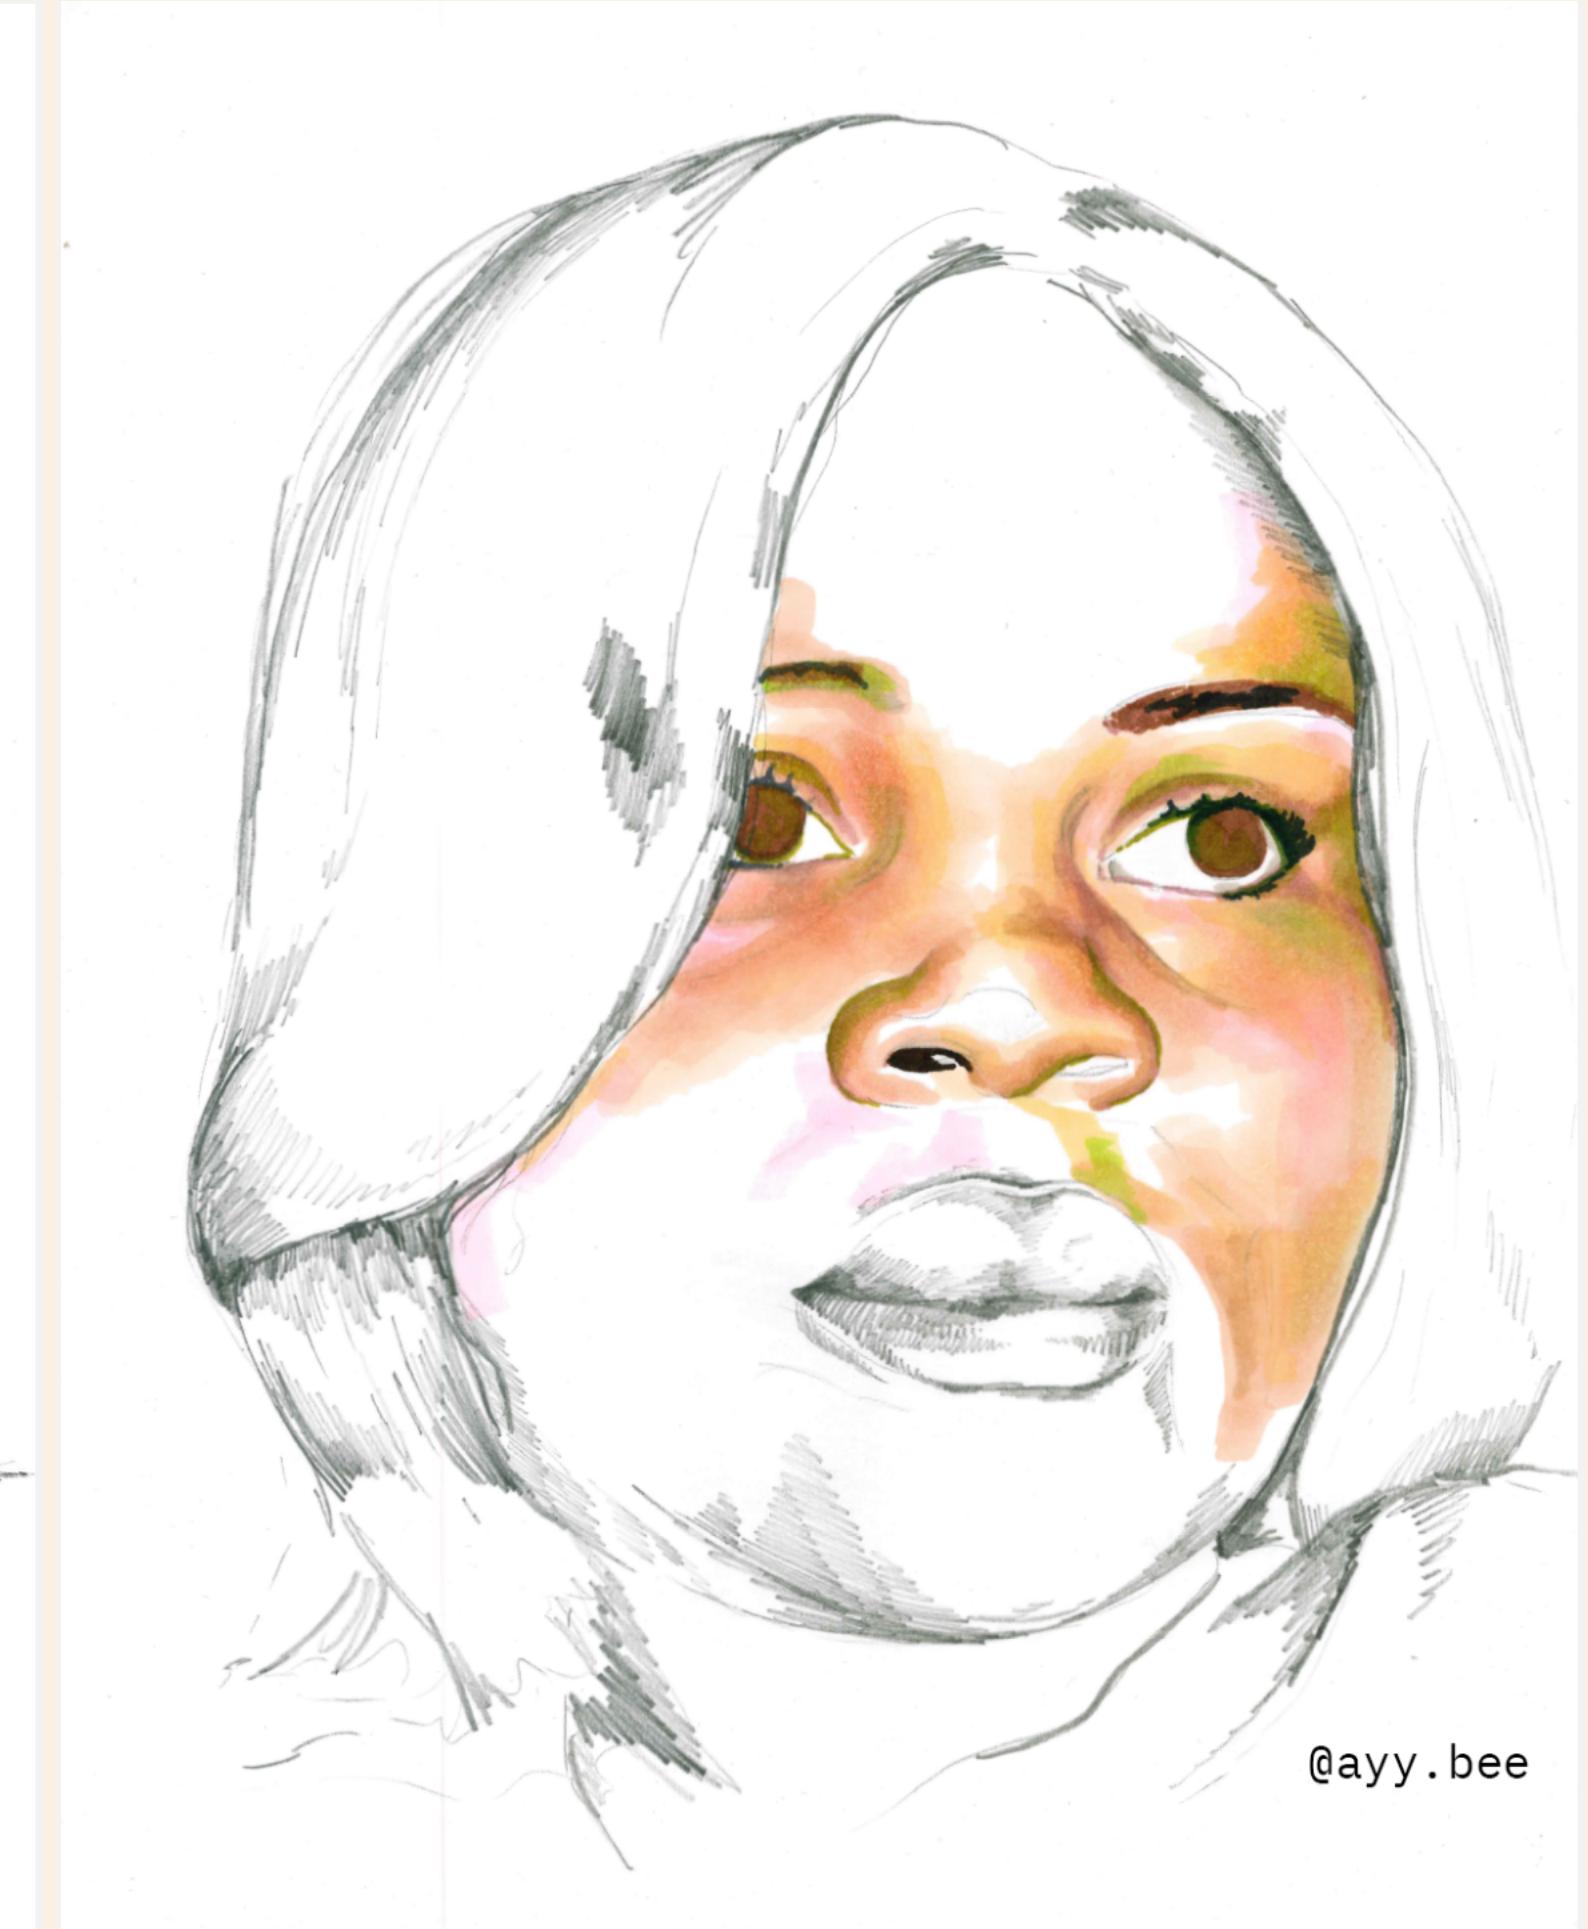

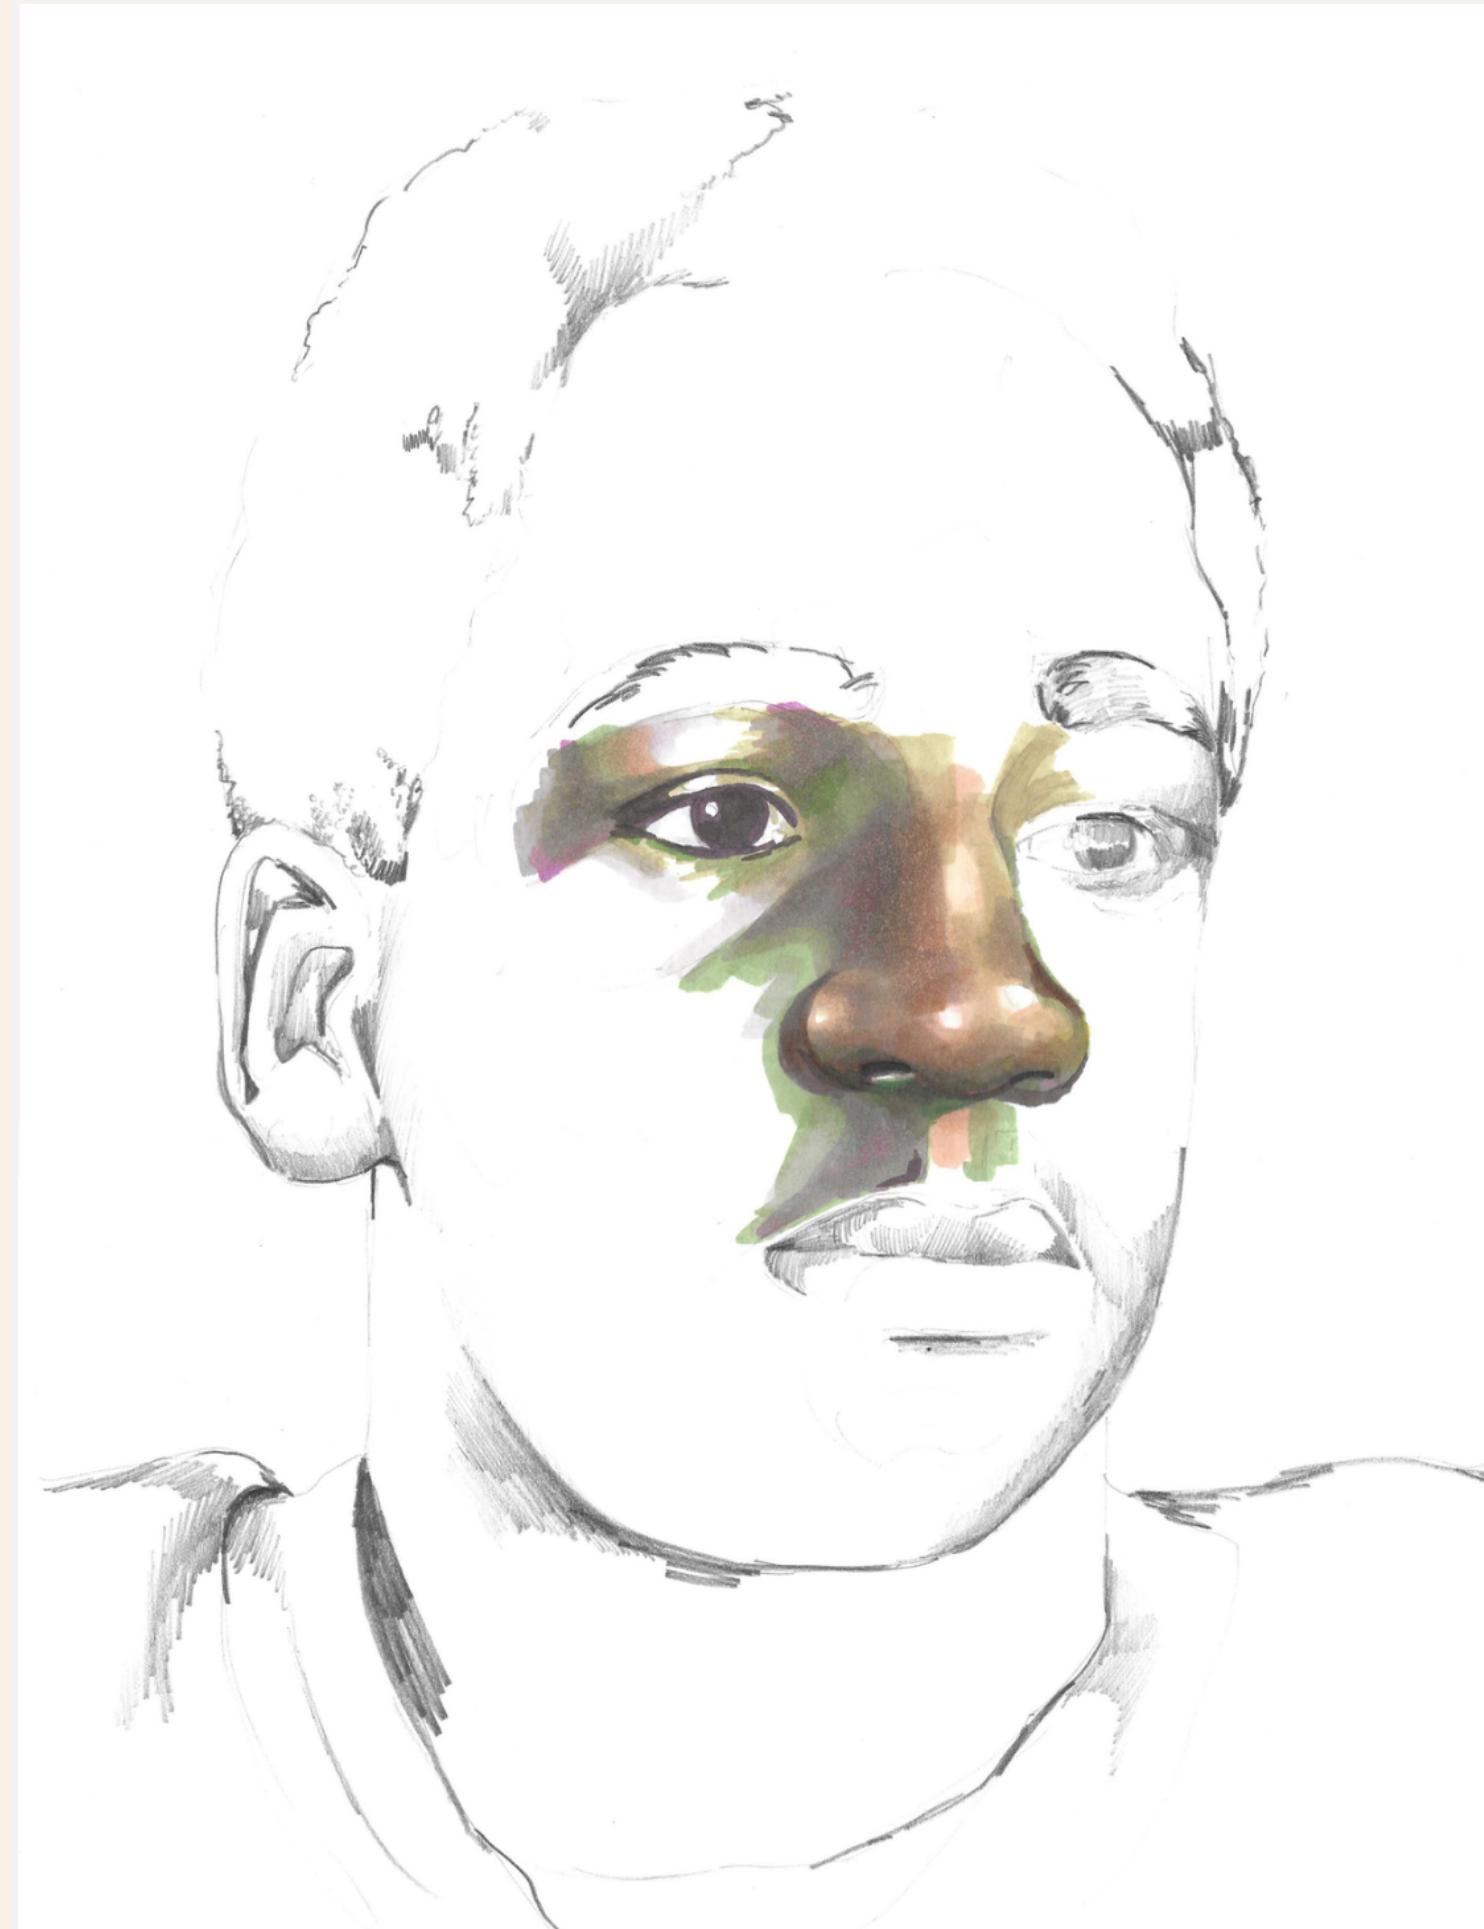

"Art is a universal language that transcends all walks of life, so I felt like it would be a good way to express the pain that I was feeling inside"

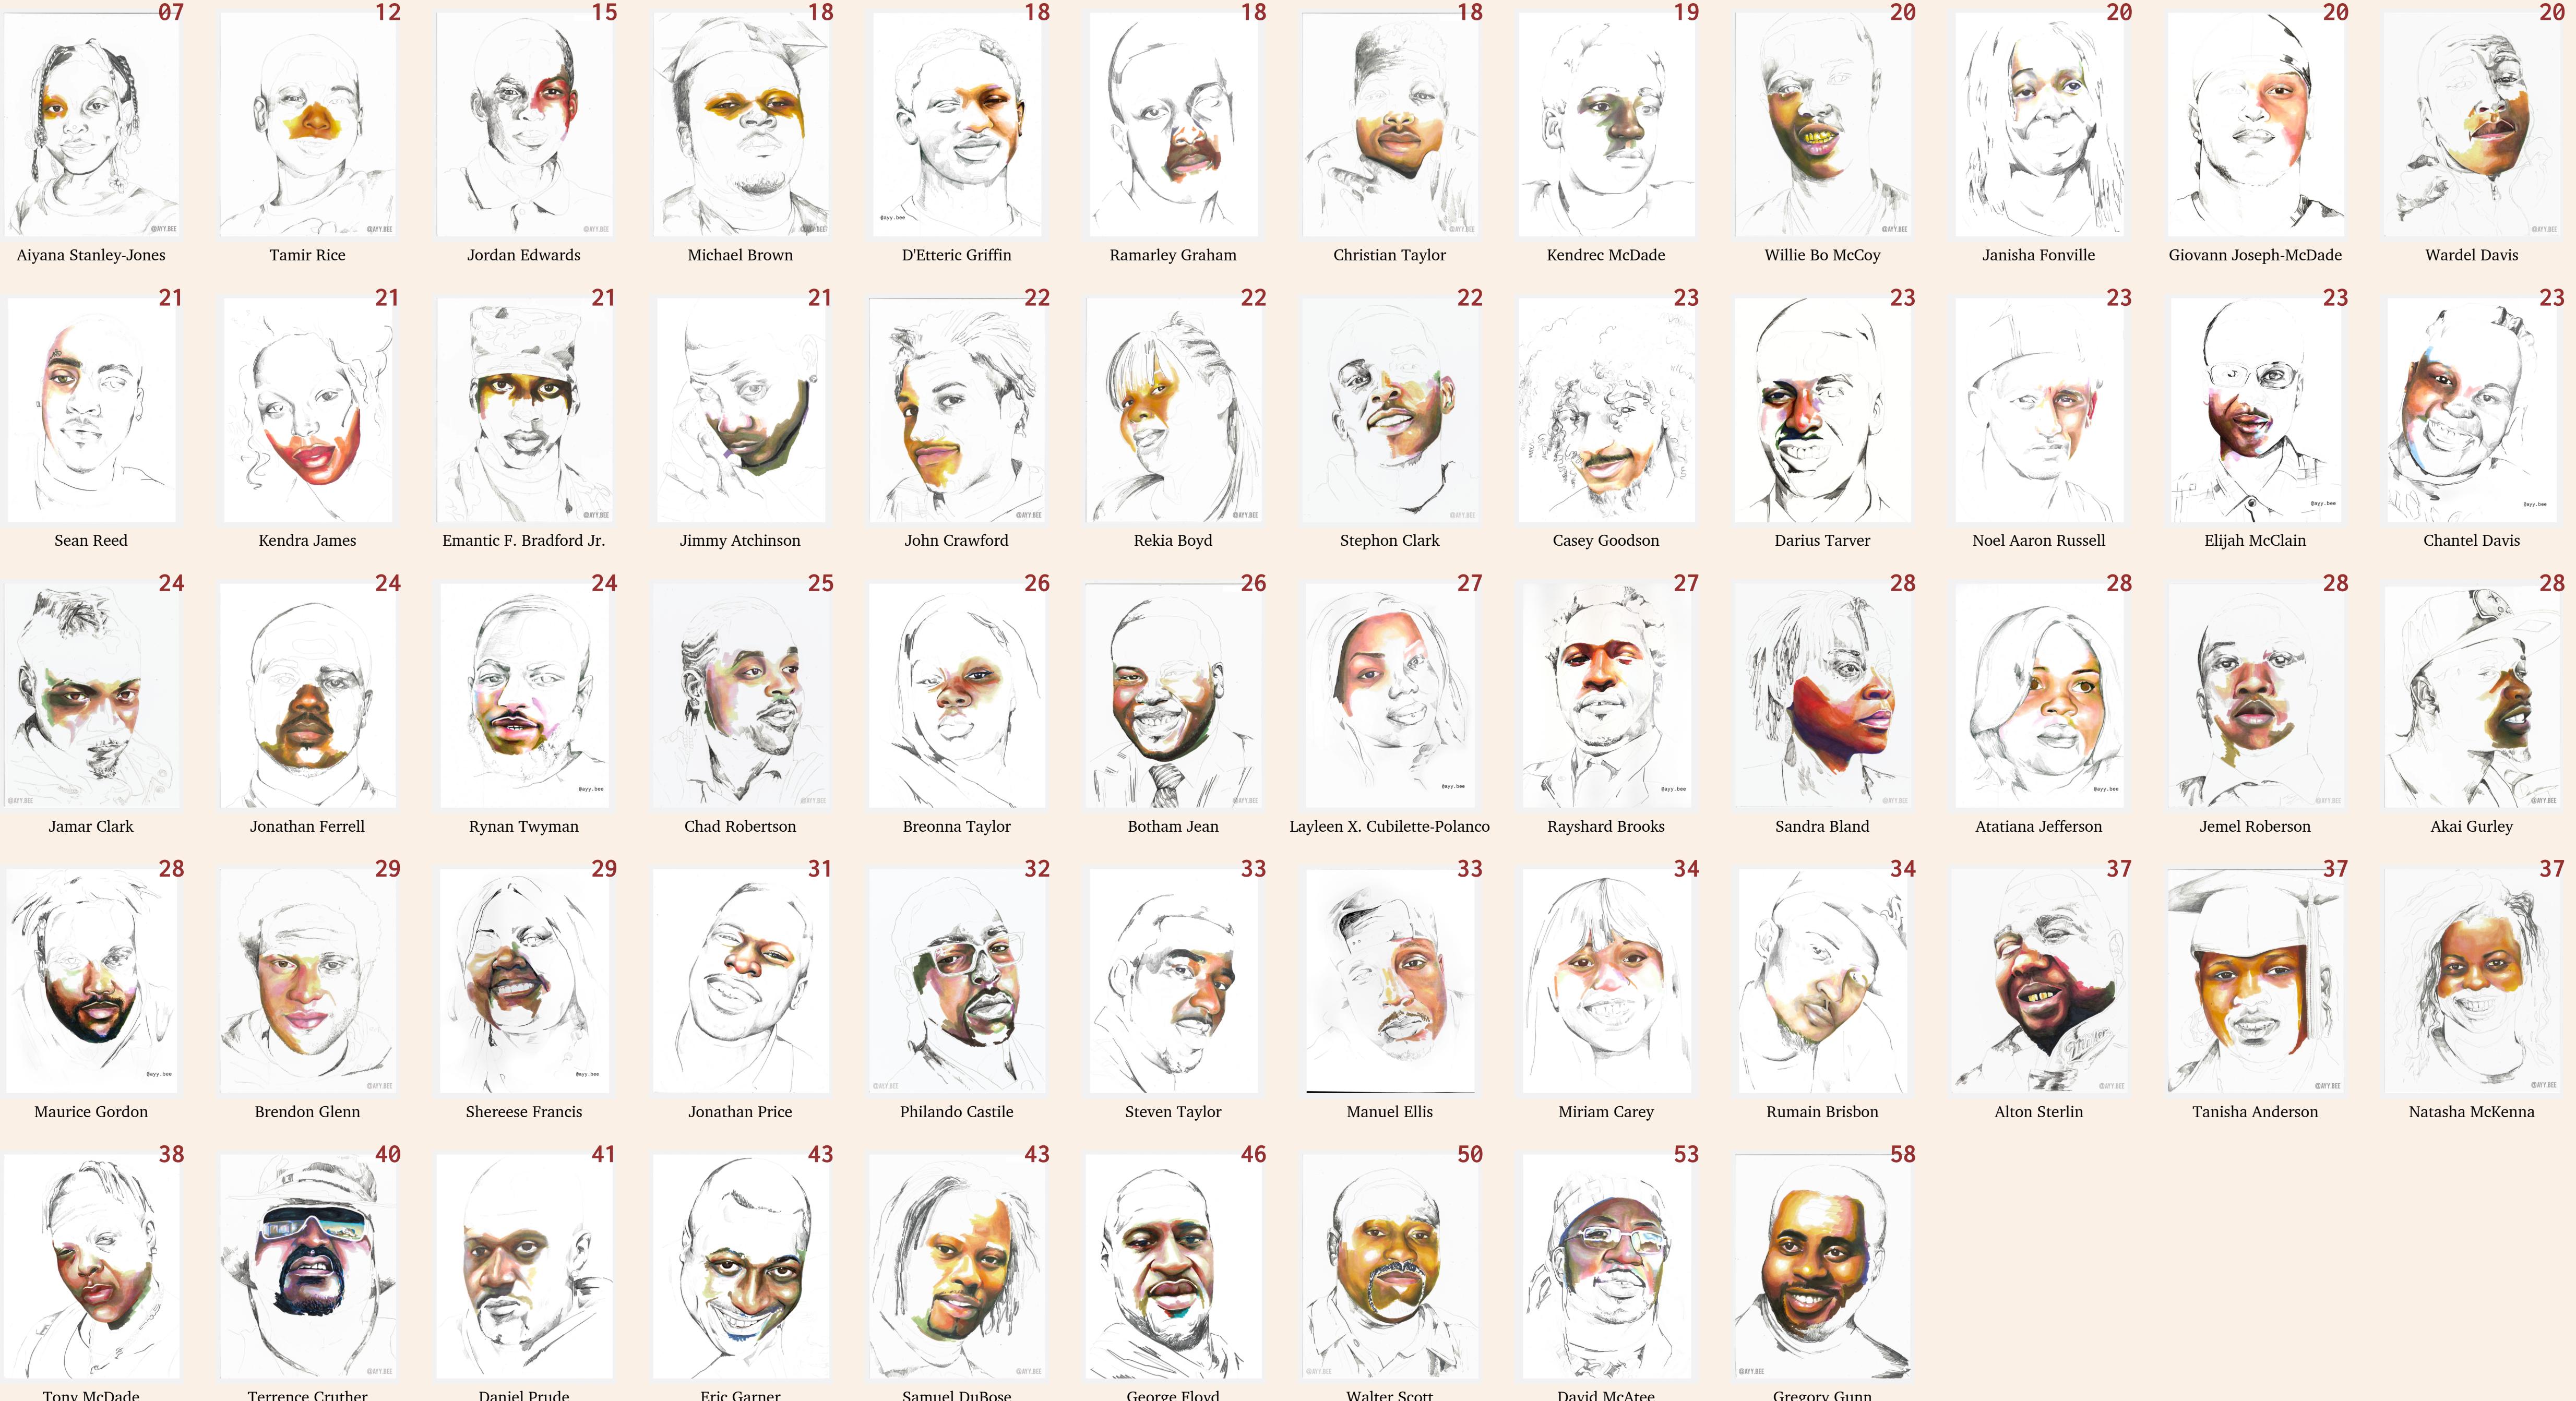

Adrian was emotional and angry with the violence against Black people and wanted to make an impact. He sought to have a voice in the conversation and chose to bring more attention to this issue through his art.

The Stolen Series is dedicated to the many Black people that were robbed of their lives at the hands of the police. Adrian uses time to define how long each portrait is colored in. 1 year of life = 1 minute of color.

The viewer is confronted with the empty space left in these lives, stories that will never be told, space that can never be filled.

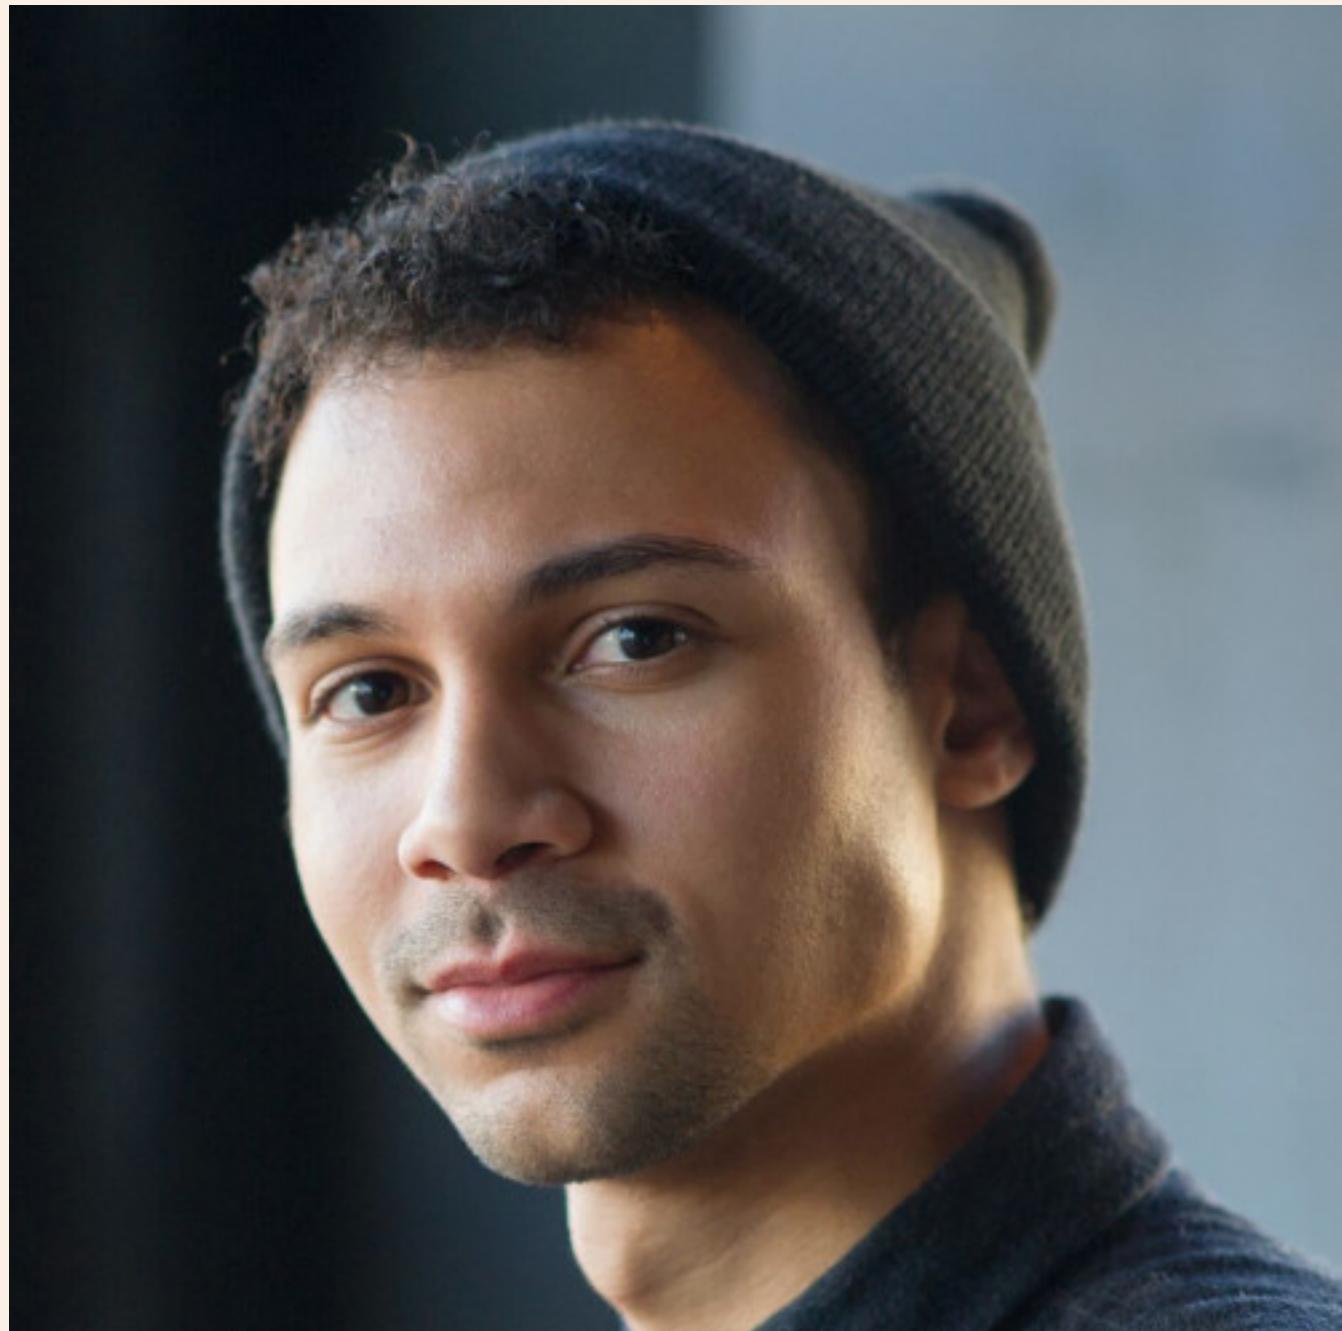

# Stolen Series: 1 Year = 1 Minute Of Color

# Sam Sinyangwe

Data scientist, activist and  
co-founder of Campaign Zero

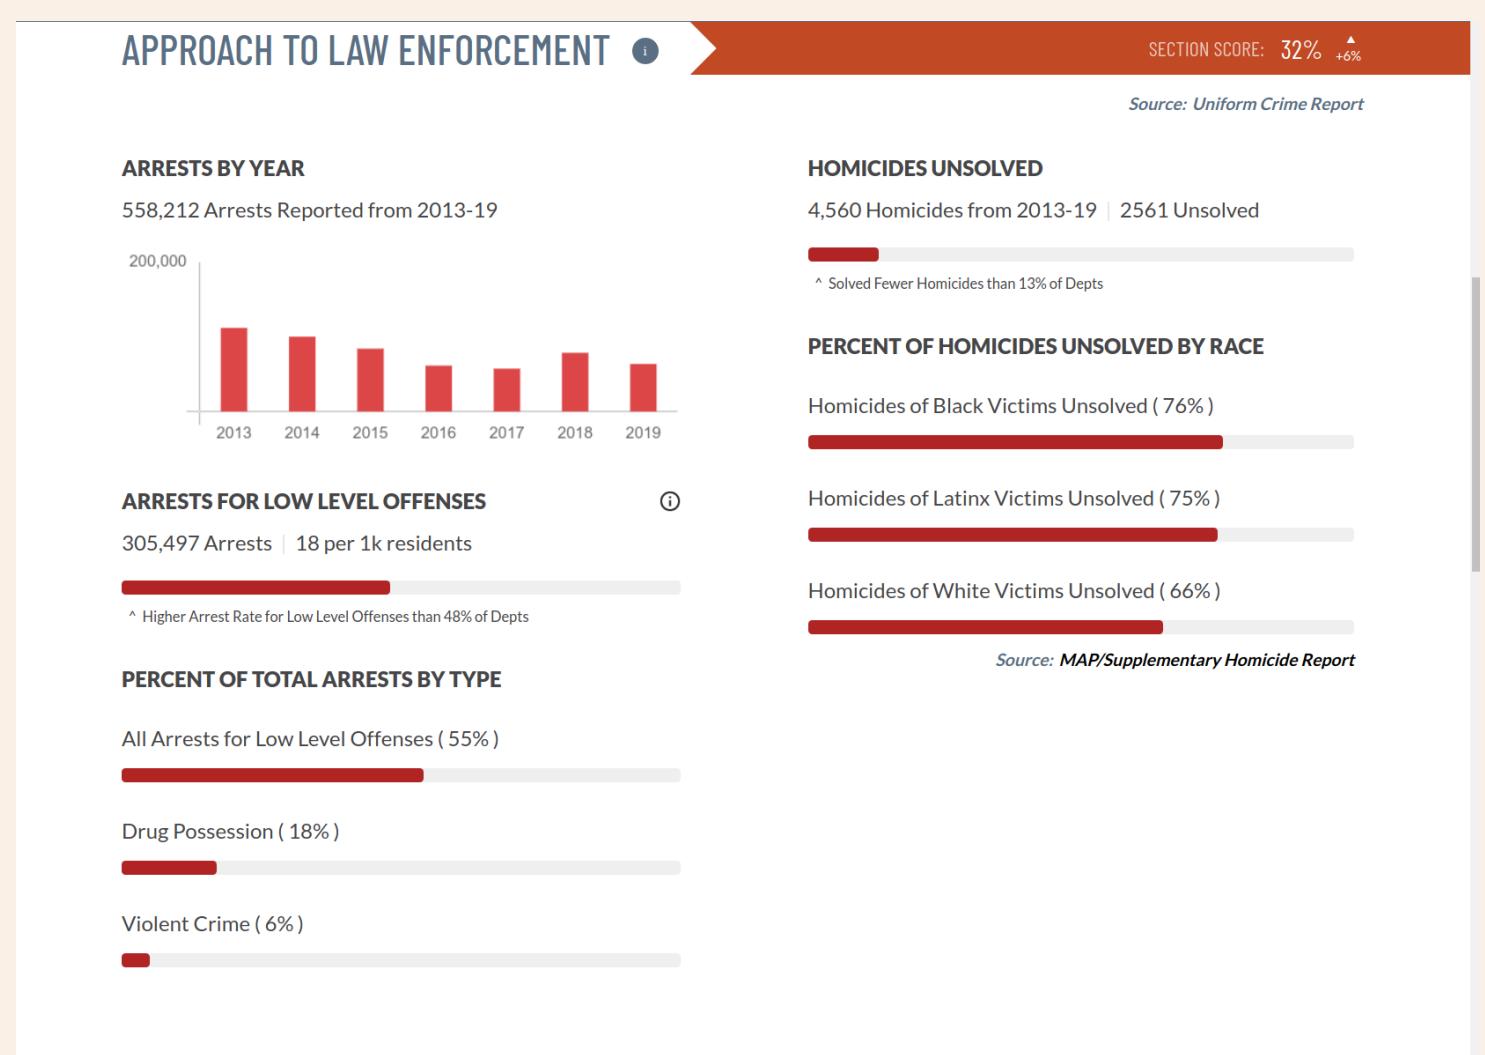

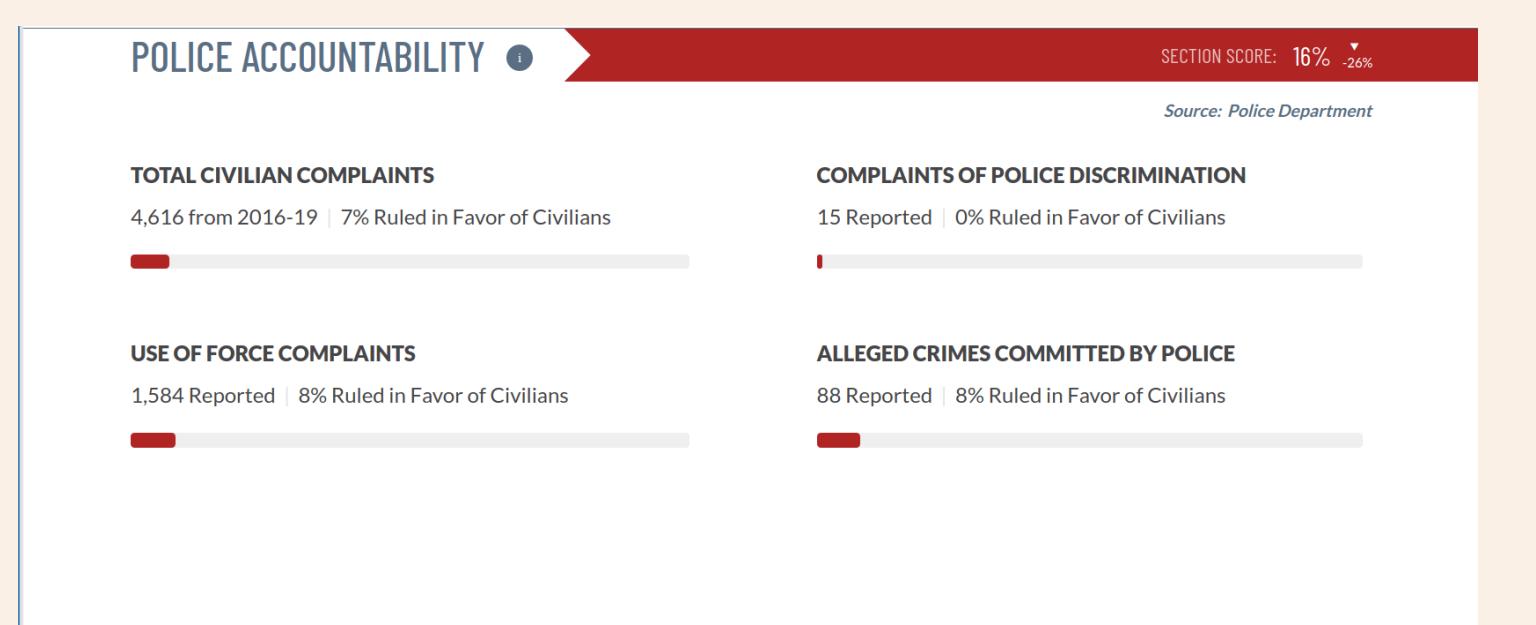

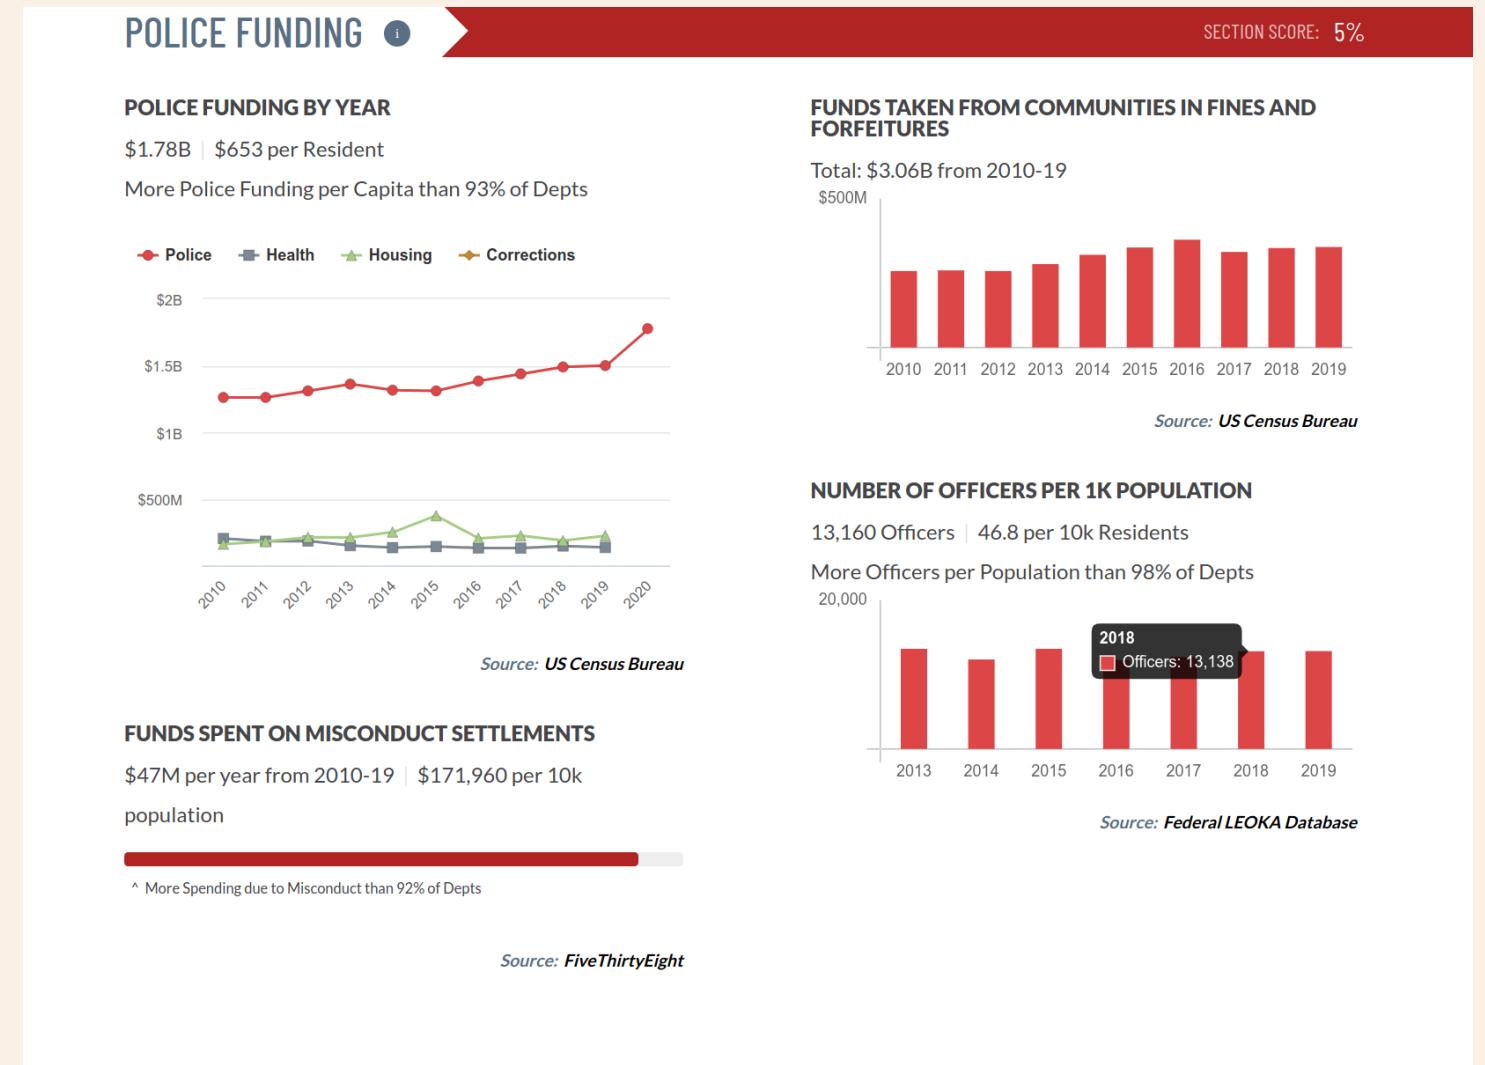

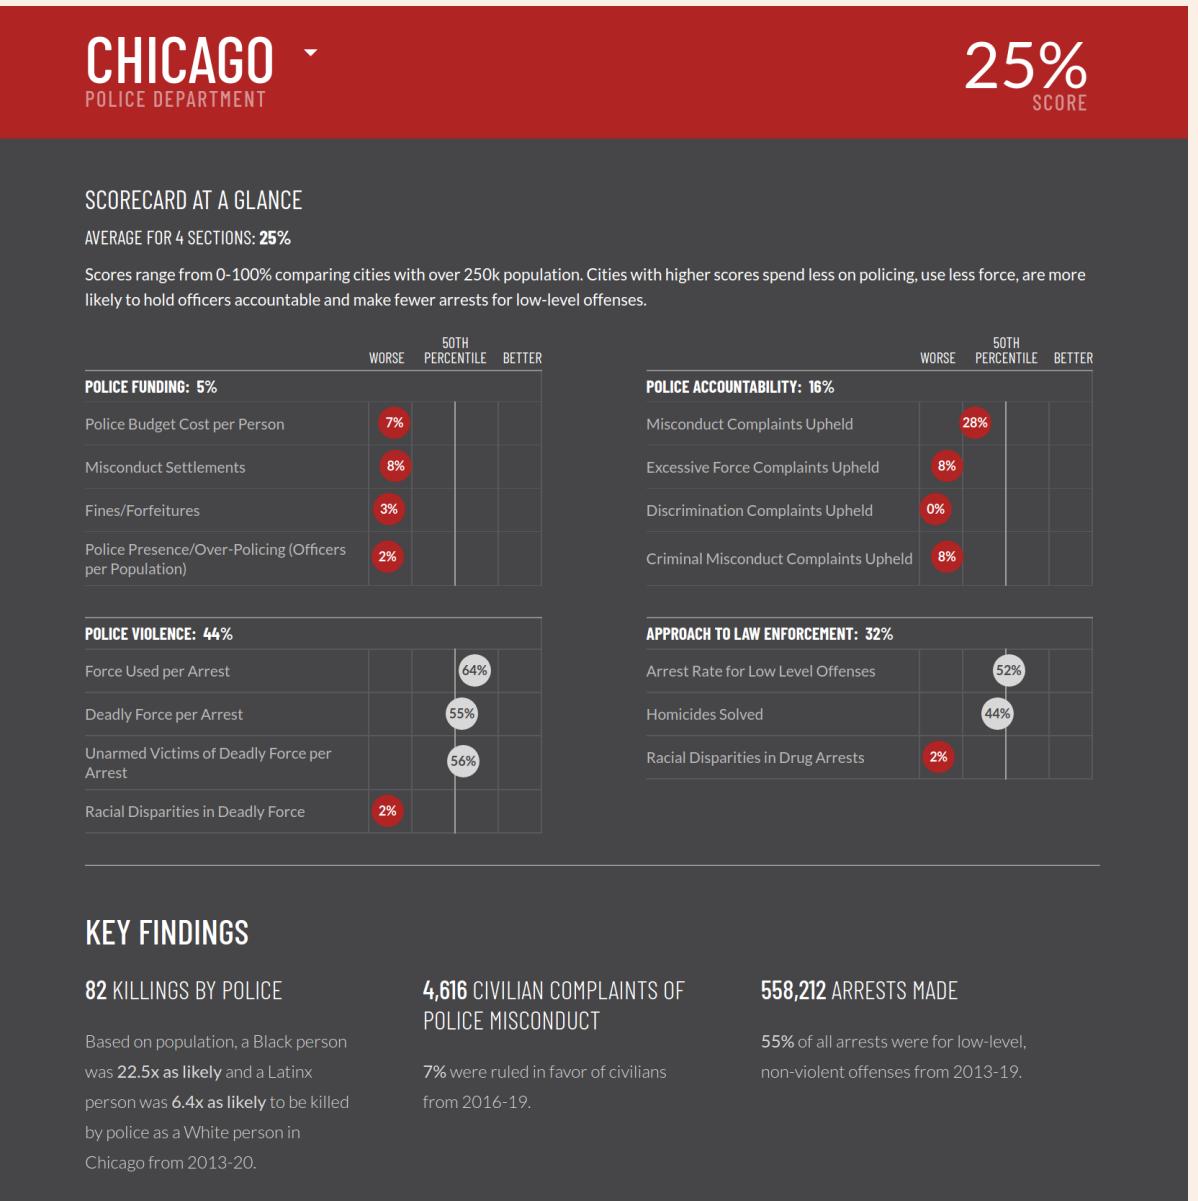

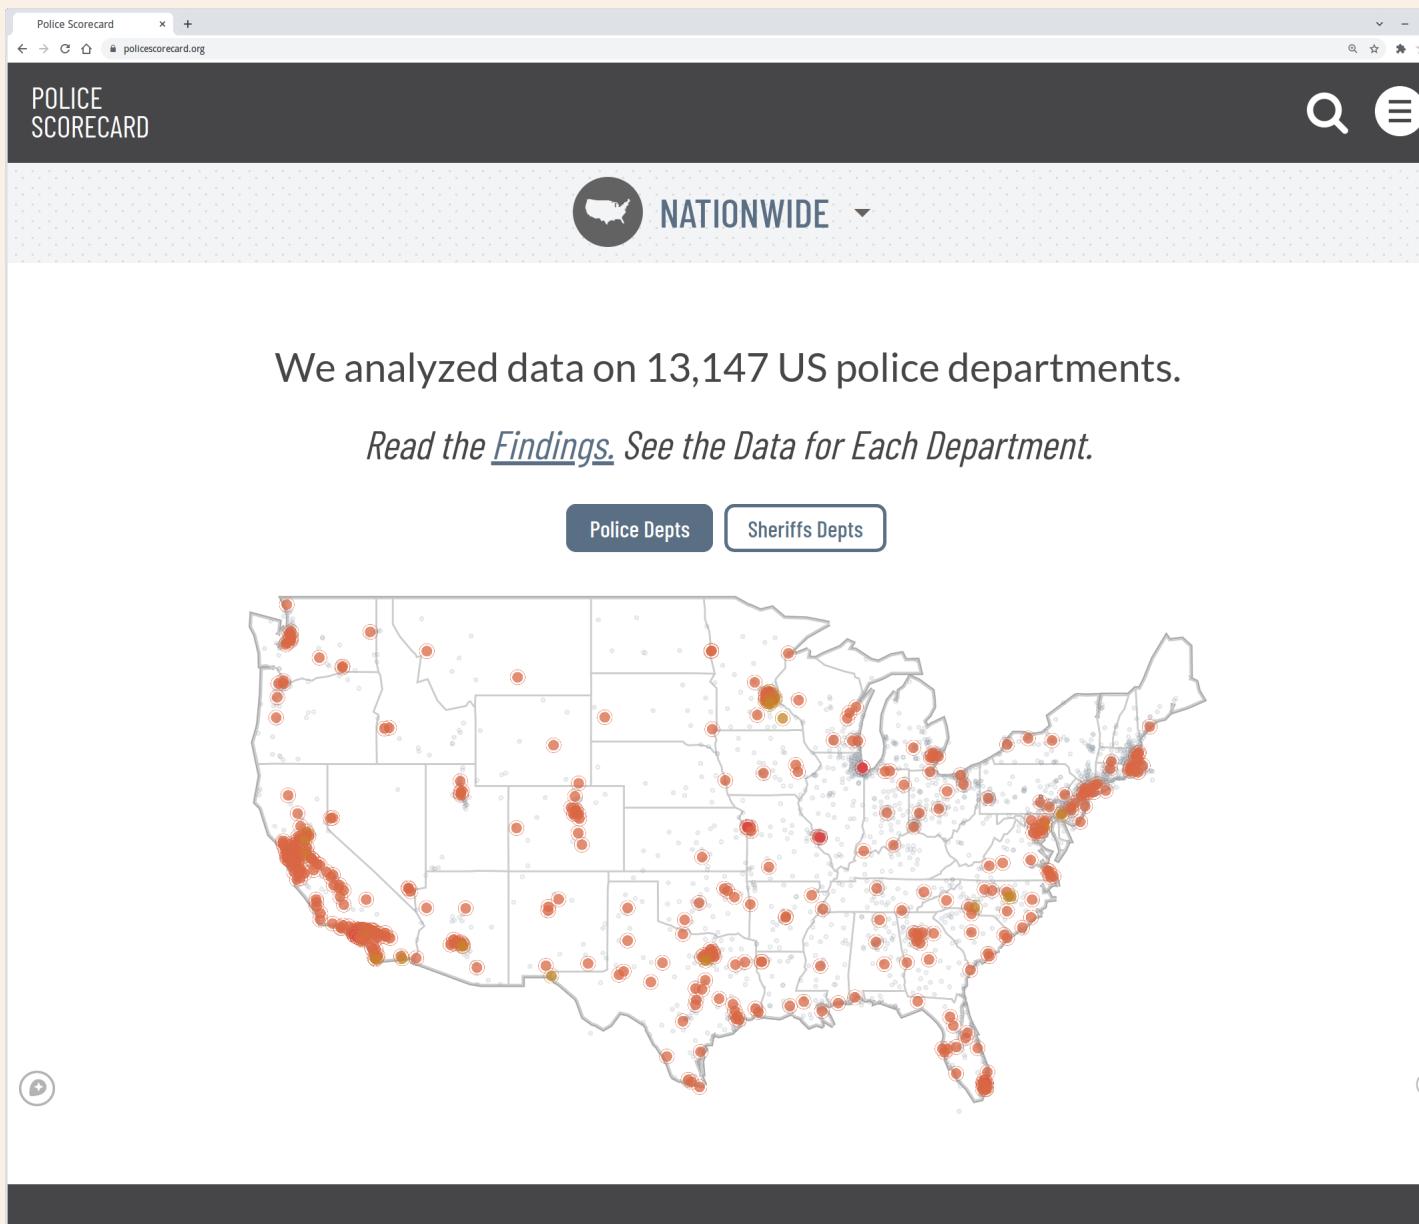

Sam is committed to fighting for policies and legislation that hold police departments accountable, and believes that using data is integral to ensuring that the proposed solutions are effective.

The deaths of Trayvon Martin and Mike Brown prompted him to gradually become conscious of the need to address police violence and violence in the criminal justice system.

“I learned early on in my journey that we don't need to wait for permission to take action.”

# Police Scorecard

# Police Scoring Criteria

- Avoiding the use of force to the greatest extent possible
- Implement non-biased and non-discriminatory strategies
- Minimize the financial burden on communities
- Prioritize addressing serious threats to public safety
- Provide some form of accountability
- Remain thorough and trustworthy

# A Tale of Two Cities (10.2 miles apart)

70%

Blain, MN

- No reported police killings 2013-20
- 12 complaints, 83% ruled in favor of civilians
- 12,836 arrests, 51% low-level non-violent

24%

Robbinsdale, MN

- One reported police killing 2013-20
- 6 complaints, 0% ruled in favor of civilians
- 4,075 arrests, 79% low-level non-violent

# Modern Data and the Human Element

What patterns do you see in the Police Scorecard?

What are some other modern data sets you would use?

What are some other methods to humanize your visualizations?

Authorship, after all, is  
not only what is created  
but also what is selected.
